

Walk for Gold

The path of your soul

Registration- & Intake form 14 days Sinai Retreat

A revelation awaits you!

Are you ready to take the responsibility into your own hands to (re)discover your true Self. Through taking every step yourself, it is you who will experience, it is you who will fully FEEL. You take the steps, and we are ready to give you the trip of a lifetime. An experienced team of Bedouins – cameleers, a fantastic cook, a guide, and myself – is there around the clock, in full service of you. In this pdf you will find the most important things you need to know to participate in 'Walk for Gold'. We would like to ask you to read this guide carefully.

We deliberately keep the groups small to aim for a maximum win for Your experience. Our starting point is you! We start from each individual, so that you can enjoy the environment and the process you are going through to the maximum, without worries, at your own pace.

It is a 10 or 11-day hike depending on the pace of the group, with the destination being Mt Sinai. The emphasis is on rediscovering who you really are so that you can enjoy life to the fullest again. It is no coincidence that this mystical desert is the ideal place to do this kind of work. The vastness and emptiness naturally contribute to the profound transformation process you are going through. In addition, the veils between the different dimensions seem almost non-existent here. The quantum field of creation is within everyone's reach. Although the process takes place organically, you can also count on my presence at all times. With more than 20 years of experience in the Sinai desert and other power places in the world, trained as a life coach, I am always there for you in this journey 'back to your essence'. We will look for the natural silence. We walk at a leisurely pace through a breath-taking landscape and experience what it means to be reconnected with the natural field. In a 'back to basics' style, we connect with the elements, we slow down, we enjoy every step.

We are eager to make it an unforgettable journey together with you!

Program:

Day 1	Arrival in Sharm El Sheikh, at the latest 1 pm. As our groups are international and people arrive in Sharm El Sheikh at different times, everyone comes to the residence on the Red Sea abode on their own. We are happy to arrange a taxi for you if you specify this when you register. The first day there is free time and an introduction.
Day 2	After breakfast there is a day filled with assignments as a preparation for our trip, and hopefully still some free time.
Day 3	We will have breakfast at the seashore before we will be picked up in the morning and drive from the Red Sea to the starting point of our unforgettable journey. We will be walking a few hours to warm up our muscles for the days ahead.
Day 4 - 12	The adventure continues with the ultimate goal of Mount Sinai. The pace of the group determines the route we will take. Close Canyon, White Canyon, Ein Hodra (oasis) are some of the breath-taking places we get to experience together. We will break the silence on the top of the Moses Mountain. You will have the chance to spend the night on the top of this powerful mountain. After the spectacular sunrise we start the descent. Depending on the course of our trip, we may or may not spend another night in the largest olive grove of the Saint Catherine Monastic Community.
Day 13	In the morning we descend further to the mountain village of St Catherine where the participants eat their lunch. After a typical local meal, we drive back to our accommodation at the Red Sea where we have the rest of the day free, and we can share our experiences.
Day 14	We have a last breakfast and a nice chat about our experiences. The new born you want to stay but will have to catch a flight back home. Airport transfers for the return flight can be arranged through WalkforGold! Please let us know if you want this, the moment you register for the retreat.

For whom is this extraordinary experience?

Our project is built on more than 20 years of experience in the Sinai desert and other places of power around the world. It stems from a real passion for people and nature and has come about through a deep observation of the self.

Are you in a period of profound change?

Do you want to live life from passion?

Do you feel like you are doing everything you can to live a happy life, but you can't succeed?

Do you feel like you've lost your way?

Do you want to stop surviving and enjoy life to the fullest again?

Have you had enough of the rat race and are you looking for a different approach to life?

Do you feel a deep desire to go to the essence of yourself? Do you long for true connection?

Do you want to experience what it means to live from the heart?

Are you looking for a deeper connection with life?

Do you want to tune in with your life mission?

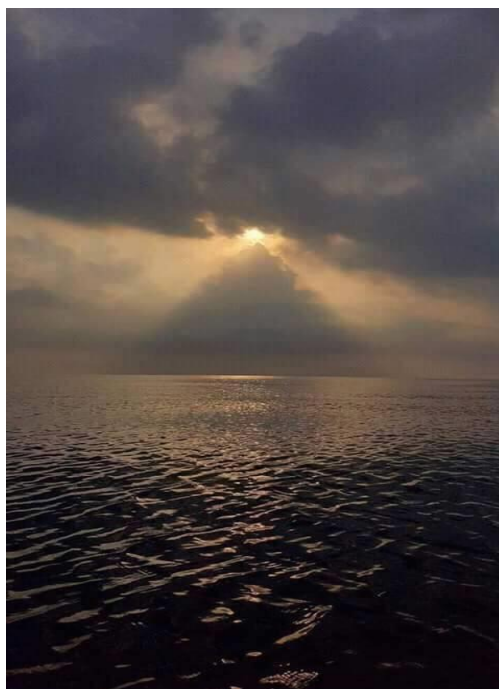

The time is now!

Are you ready to take responsibility for your life into your own hands?

If your answer to any of these questions is YES, then YOU are the ideal person to go and come on a journey with us.

'Walk for Gold – The Path of the Soul'.

One of the most transformative experiences in your life is awaiting you.

How do we bring you this experience?

After more than 20 years of experience with silent walks, we put ourselves at your service. Over the years, through intense self-observation during the numerous journeys, I have witnessed how time and again I was consciously and unconsciously guided by similar experiences. They became rituals in order to initially come back to myself. I have come to recognize these over an extended time, and they are now bundled together in an extensive toolbox full of efficient tools, to help you to easily come back to your center. No complex techniques coming out of one or the other theoretical textbook, not too much blah blah, but tools that speed up the entire process, handed over to me through walking an authentic life.

The experience that we like to share with you is based on 5 important pillars.

1. The power of nature

The quantum field, of which nature is an important part, is our main source of energy. If the stream with this vast field is interrupted or no longer flows properly, we as humans can no longer function optimal. The natural field is the network that vibrates the same as our human body, and with which we consciously connect during our trip. We will be bathing in one of the most powerful locations on our planet. Let yourself be embraced by the power and splendor of the Sinai desert and let yourself be led into the Kingdom of Silence, which can serve as a gateway to the 5th dimension.

If we would charge our body with the same intensity as we do with our mobile phone, we would be in nature every day!

2. Silence

We all come from a state of being, being without thinking, a place of deep inner silence, a pure feeling state where we experience ourselves without judgment.

Inner peace, silence, it is like our first language, it is ancient, it is our birthright. It is the language that makes our soul speak.

Bringing our train of thoughts to a halt is therefore a first challenge that we go through in an organic way. In our quest for inner peace, we are going to stimulate our mind as little as possible. We notice that our stream of thoughts gradually slows down to eventually arrive at a pleasant experience of emptiness. From that emptiness we come to truth. We are inspired, no longer from the mind but from the heart.

3. Back to basics/out of the comfort zone

The life, our agendas, circumstances, what you do with your free time, ... it all influences how we feel. We are so inundated with input these days. The load of information that is consciously or unconsciously included in the programming of our daily lives adds up and is in the long run harmful for our well-being.

By consciously distancing yourself, by taking a moment in true connection with what it is, by stepping out of your comfort zone, you give yourself the time and space to shake off all those distractions. and focus your attention on what is real.

In the desert we go back in true connection with what is, we feel the natural elements earth, water, fire, air, and ether. We immediately come into contact with the natural everyday cycle. We rise with the sun and go to sleep not long after it sets. We enjoy for a while longer under the watchful eye of the stunning starry sky.

4. Own Responsibility

Only when you give your attention, and therefore your energy a full 100%, at that moment, you create opportunities to experience reality.

The message here is to take your responsibility into your own hands. Unfortunately, you can't buy happiness, you can only learn to tune in with it and cherish it. That is why we invite you to come and experience 'the path of the soul' for yourself. Don't put off any longer what your soul longs for!

The change is in the action. "Be the change you want to see in this world".

5. Breath

Without breath there is no life. Fortunately, we breathe automatically. You don't even have to be conscious to breathe, even when we sleep, we breathe. But this does not mean that we do not have to breathe consciously. How someone breathes is telling us a lot about how this person walks life. We therefore go back in search of healthy natural breathing.

How do you prepare?

Travel documents :

You definitely need an international passport that is still valid for 6 months after departure from Egypt. You can apply in most countries for an online visa. Otherwise contact your Embassy. If for some reason the visa is not in your possession in time, don't panic. For most nationalities it is also available at the Sharm El Sheikh airport. Provide 2 recent passport photos and a budget of 25 euros.

Flight tickets :

Please book a flight to Sharm El Sheikh Airport. Contact your local travel agent or book online. If you have any questions, we are happy to help you choose your ticket.

Communication :

We advise you to remove your SIM card from your mobile phone when boarding the plane in your home country, as there are very high roaming costs from above the Egyptian flight space. If you consider it necessary, you can buy an Egyptian SIM card.

What to take with you :

We recommend that you provide both summer and winter clothing. Choose comfortable clothing in which you can move freely. A thick pullover and warm jacket you can put on when you leave, so you save space in the backpack. A good sleeping bag, and a tent for those who don't want to sleep under the stars. A hot water bottle for those who get cold easily. Our guides are happy to provide you with the necessary hot water in the desert.
